Contact Pickering's Lifts Loading Systems, your KELLEY® representative or visit [www.pickeringlifts.co.uk](http://www.pickeringlifts.co.uk) to schedule a consultation and learn more about the KELLEY® range of logistics solutions and initiatives.

A continuing research programme is in effect. We reserve the right to incorporate product improvement at any time without prior notice.

- 1 Full range toe guards.
- 2 Integral support strut with lock-out capability keeps ramp raised for routine maintenance and cleaning.
- 3 Anti-Interference Cam limits safety leg interference throughout the loading/unloading cycle.
- 4 Structural steel safety legs for free fall protection.
- 5 Unlimited float hold-down provides easy fingertip release and extended float throughout the dock leveller's working range.
- 6 Open frame design for easy pit cleanout.

*SafeTFrame® Construction, ensuring level transition from warehouse floor to dock leveller*

- 7 Unique oil-tempered, chromium silicone steel extension spring counterbalance with single adjustment point for high strength, durability and easy walk-down.
- 8 Exclusive SafeTFrame® provides superior structural support and level interface with warehouse floor.
- 9 Integral lip lock keeps lip raised for routine maintenance and cleaning.
- 10 Lip keepers secure dock leveller when parked.
- 11 Hydra-Cam extends and holds lip at the top of its cycle. Lip remains yieldable throughout loading operation.

*The Hydra-Cam Lip Assembly*
