...whatever type of lift, our service team has the expertise to improve, maintain or repair it...

PICKERINGS LIFTS
LIFT MAINTENANCE & REPAIR

Customer service and technical excellence have always been the driving force at Pickering's Lifts. From design and sales through to installation and maintenance, we pride ourselves on our industry leading products and services.

At Pickering's Lifts, we understand how crucial your passenger, goods, service and access lifts are to your business and we are here to ensure they do what they are designed to do, whenever they need to.

Whatever type of lift you have, the Pickering's Lifts team has the expertise to improve, maintain or repair it.

Pickering's Lifts maintenance contracts are designed to keep your lift and your business moving. We work closely with you to ensure your

contract is exactly right, tailoring our agreement to your specific needs.

At each visit, we ensure operation of all safety features and devices, verify all lift functions are working correctly and check the installation is of optimum condition.

Our qualified engineers receive regular training to keep them fully up-to-date with the latest technology and we continually monitor the latest developments to ensure compliance with current legislation.

We can advise on improvements such as reducing energy consumption, improving reliability and performance, optimising traffic flow and enhancing appearance.

We can also undertake full DDA and Health & Safety audits when you need to alter use, ensuring compliance with the necessary regulations.
